

D40

PROFESSIONAL DYNAMIC INSTRUMENT MICROPHONE

AKG[®]
by HARMAN

HIGHLIGHTS

Dual-thickness Varimotion diaphragm

provides crisp, powerful sound in all frequency ranges

Highest sound pressure levels up to 156dB

for extreme situations without any distortion

Cardioid polar pattern

for trouble-free use in narrow stage environments

Rugged wire-mesh cap and sturdy die-cast metal body

withstand tough day-by-day stage use

Integrated stand adapter and external bracket

for easy mounting on drums and mic stands

KEY MESSAGE

The D40 professional instrumental microphone with its solid all-metal body will stand up to the hardships of night-after-night onstage use with a smile. Its patented Varimotion diaphragm uses a unique laminated material to damp high resonance peaks, leading to a quantum leap in audio performance. The transducer is protected by a sturdy wire-mesh cap and can take extremely high sound pressure levels with ease.

An integrated stand adapter in combination with the included H440 mounting bracket makes the D40 a highly versatile tool for use on drums, percussion, wind instruments and guitar amps.

APPLICATIONS

**DRUMS
PERCUSSION**

**WIND INSTRUMENTS
GUITAR AMPS**

TECHNICAL SPECIFICATIONS

Audio frequency bandwidth: 50 to 20000 Hz
Sensitivity: 2.5 mV/Pa
Electrical impedance: ≥ 600 Ohms
Recommended load impedance: ≥ 2000 Ohms
Polar Patterns: Cardioid

Audio Output

Type: Balanced XLR
Gender: Male
Contacts: 3-pin

Design

Body: Metal
Finish: Dark Stage Blue

Dimensions/Weight

Length: 104mm
Height: 79mm
Diameter: 44mm
Net Weight: 245 g

INCLUDED ACCESSORIES

H440 Stand Adapter

Microphone Bag
